PROFESSIONAL EXPERIENCE

WEB DEVELOPER & DESIGNER

Sep 2020 - Present

Advanlogix Solutions (Pvt) Ltd

Lahore, Pakistan

- Identified web-based user interactions and developed highly-responsive user interface components via React concepts
- Interacted with Graphic Designers for web design features while ensuring 100% quality, accuracy and Responsive Web Design.
- Co-operated with backend developers in designing & coding data driven custom web applications.
- Develop a leading American bank website Using HTML, Tailwind CSS, and Vanilla Javascript.
- Translated designs & wireframes into high-quality code and wrote application interface code via JavaScript following React.js workflows
- Troubleshoot interface software and debugged application code to improve functionality and performance by 50%
- Optimized components for maximum performance across a vast array of web-capable devices and browsers
- Reviewed application requirements and interface designs to ensure compatibility with existing applications

FRONTEND WEB DEVELOPER

Nov 2017 - Nov 2018

United Vision (Pvt) Ltd

Lahore, Pakistan

- Designed and developed the user interface for a leading school management system that's successfully deployed in various schools in Lybia, Sudan, and Malaysia.
- Determined the structure and design of web pages based on user requirements and balanced functional & aesthetic designs
- Created features to enhance the user experience while ensuring that the web design is optimized for smartphones
- Employed a variety of languages such as HTML and CSS to write & create user-friendly web pages
- Built reusable code for future use and optimized web pages for maximum speed and scalability
- Managed brand consistency throughout the design and maintained & improved the company's website by adding more features and functionality
- Produced high-quality mockups & designed different wireframes and provided high-quality graphics & visual elements

WEB & GRAPHIC DESIGNER

Feb 2017 - Oct 2017

Xgeeksters

Lahore, Pakistan

- Created websites and user interfaces, using standard HTML, CSS and JavaScript practices, while incorporating data from back-end databases and services.
- Assisted the Senior Developer in designing and developing custom web applications throughout the project life-cycle
- Cooperate with web designers and developers to match visual design intent with user requirements
